

# Machias Seal Island July 25<sup>th</sup> 2020

Puffins, Razorbills and Common Murres in order of  
appearance with a cameo by a Northern Gannet

Deana and Peter

# Intro:

- **Normally it requires booking about a year in advance.**
- **Due to pandemic the Day's Catch (Seawatch Tours) had higher quota for visitors to Island because American boat wasn't operation.**
- **We were able to get the last two tickets on short notice.**
- **18 Passengers – 4 blinds, two shifts, 45 minutes for “bubbles”!**

Blue-gray Gnatcatcher - Escuminac

A close-up photograph of a Blue-gray Gnatcatcher perched on a thin, dark brown branch. The bird is facing right, with its head slightly tilted upwards. It has a pale yellow beak and a dark eye. Its plumage is a mix of light gray and white, with darker gray on the wings and tail. The background is a clear, bright blue sky. The text "Blue-gray Gnatcatcher - Escuminac" is overlaid at the bottom of the image in a white, sans-serif font.
